

Parent of a year 7 pupil, Richard Emsley was elected as a Parent Governor in February 2015. An engineer by profession, for the past 20 years Richard has made a career out of building and selling technology-based businesses. In this capacity, he has served as a director on numerous Boards, including plc level, and as a result is familiar with strategic planning, organisational governance issues, the demands of staffing a complex organisation and working with finite resources. Away from business, he coaches Mini Rugby at Stow RFC.
